### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steve Cha on 31 August 2005.

The application has been amended as follows:

- In claim 3, line 3 "capacity of the input/output" has been changed to --the capacity of an input/output--.
- In claim 3, line 3 "number of the sub-highway" has been changed to --the number of a sub-highway--.
- In claim 3, line 4 "number of the channel" has been changed to --the number of the channel--.

2. The following is an examiner's statement of reasons for allowance: the prior art does not disclose or fairly suggest "a control memory device having an input and output data regions to switch the Pulse Code Modulation (PCM) data to an intra-direction" where the call direction data is written into "a designated memory and address of the respective said input and output data regions of said control memory device."

3. Examiner notes that an Advisory Action was mailed on 8/24/2005, in response to an identical amendment submitted on 5/31/2005, in which Examiner indicated that Applicant's arguments failed to place the claims in condition for allowance since the arguments did not

comply with CFR 1.111(b). In that Advisory Action, Examiner mistakenly assumed that the claims were still rejected using Jotwani due to Applicant's arguments concerning such a rejection. However, Examiner dropped the rejection of the claims using Jotwani in the Final Rejection mailed 3/18/2005, and issued a new rejection under 35 USC § 112, second paragraph. The current advisory action overcomes the 35 USC § 112, second paragraph, rejection. Therefore, the claims are currently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel J. Ryman whose telephone number is (571)272-3152. The examiner can normally be reached on Mon.-Fri. 7:00-4:30 with every other Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Huy Vu can be reached on (571)272-3155. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
